Letter of Recommendation
Of Yuri Cristiano Mascarenhas Diógenes

To Whom It May Concern

Yuri Diogenes worked for Faculdade Integrada da Grande Fortaleza University as a Professor. He started with us teaching Operating Systems discipline at second semester of Management Network Computer Graduate Course. Recently he assumes the Network Computers discipline and in both situations we had positive feedback from the students.

His discipline of Operating System has laboratory practices, and this practices involve installation of Windows 2000 Server, configuration of networking service like DNS, WINS, DHCP, RRAS (VPN Server, Router and Dial on Demand), analysis of performance in the operating systems, troubleshooting of hang problems and diagnostics. The discipline of Network Computers has laboratory practices too, and in this situation the students has opportunity to interact with connectivity equipments, such as Switches and Routers. His teaching Network Computer discipline with the book that his wrote about Cisco CCNA Certification, that is one of the most leased in our library.

He has keen insight into learn process, and is an expert in project management, course development and classroom instruction. He contributes to University make an events where he comment to all students of technology about Microsoft and Cisco technologies.

During this period that Yuri Diogenes work with us, from February 2003 to October 2003 we have excellent relationship and we feel honored to have been asked by Yuri Diógenes to be one of the persons who is recommending him.

Sincerely,

Johnny Wilson Cavalcanti
