Letter of Recommendation  
for Yuri Cristiano Mascarenhas Diógenes

To Whom It May Concern

Yuri Diógenes worked for us as an instructor and administrator of an internal computers network from 1995 to 1996. He taught many classes about Windows, Office, Dbase III Plus, Networking Essentials and many others courses.

He administers our network that is composed by a Novell Netware Server and Windows 3.11 Workstations. Yuri Diógenes was always a hard working employee that could undertake any technical job assigned to him. His relationship with others employees was very good.

Yuri Diógenes is very cooperative and in this year of work with him is very productive for us. I strongly recommend him.

Sincerely,

  
Daniela Medeiros Cedro  
IT Manager
